## 1. Project Overview

The Developer agrees to design and develop a customized website for the Client. The website will be professional, responsive, and secure, optimized for both desktop and mobile users, and will include essential features for functionality, SEO, and security.

## 2. Scope of Work

The Developer will create a professional and modern website for Phoenix Rising Foundation, including a dedicated homepage, detailed service descriptions, and a system tailored to the Client's requirements. The design will be responsive and credibility-focused, helping the Client reach more customers, save time, and strengthen organizational reputation. The website will also feature clear navigation for ease of use and integration of secure payment options to support seamless client transactions.

### 2.1 Services Section

The website will include a dedicated Services section highlighting the Client's expertise, Services include:

- Branded responsive web application (desktop + mobile).
- Area and branch management
- Members: member registry, KYC, member login (view-only), member blank sheet, staff-based member assignment
- Loan disbursement and loan management: create lenders, take loans, loan balances, loan schedules, installment due dates
- Loan collection and loan savings collection
- Fees collection and late fee calculation; admin dashboard shows days past due when payment is late and late length
